Profile

Information technology professional with more than 7 years experience developing e-commerce sites implementing various payment gateways, customizing content management systems, designing and managing databases, and converting ASP applications to .NET.

Technical Skills

- Web Programming (front-end, middle, and back-end), Scripting and Styling
N-tier Client/Server Systems Analysis - Databases, SQL and Stored Procedures

Languages and Related Technologies

ASP/ASP.NET 1.1/2.0 (C#, VB/VB.NET)
ADO/ADO.NET, Crystal Reports .NET
AJAX, JSON, SOAP
XML/XSLT, HTML/DHTML/XHTML, CSS
PHP, Java/JSP/Servlets, JavaScript

Databases

Microsoft SQL Server 7/2000/2005, Access
Oracle, MySQL,

Software/Applications

Microsoft Visual Studio/.NET 2003/2005
Visio, Project, Coveo
CMS Made Simple, Joomla, Xampp
Apache, Tomcat, Zend Studio, PhpMyAdmin
Oracle Developer 6.0/Oracle 8.0
Adobe CS Suite, Premiere

Business Skills

- Proven abilities of analysis, problem resolution and comprehension of complex technical information - quick learner and dedicated to continuous learning
 - Effective team member through the complete software development cycle of design, testing, implementation and maintenance
 - Strong communication and organizational skills
-

EMPLOYMENT HISTORY

Senior Programmer

Mar 04 - Present

UIM Internet Solutions Inc. (formerly UIM Creative Group) (Toronto)

- Developed and supported web sites created using various web languages (ASP.NET 1.1/2.0 using VB.NET & C#, JSP/EJB Beans, PHP), databases (SQL Server 2000/2005, MySQL, Access) and third-party components

Major Projects

Somerset E-Commerce

- Developed and supported modifications for five front-end label-centric multi-currency shopping carts that use a common checkout system
- Built on top of a Storefront implementation customized to fit music and media-centred physical products
- Currently developing a hybrid physical/digital e-commerce site for Lifescapes music label
- URL(s): solitudes.com, avalonmusic.com, fisher-pricemusic.com, reflectionsmusic.com, lifescapesmusic.com
- Technologies used: ASP.NET 1.1, SQL Server 2000/2005, Beanstream payment gateway

Cineplex Performance Management

- Developed an online version of Cineplex's employee evaluation process coupled with multi-source / 360 degree assessments that allows staff members to be reviewed by their managers and peers. Currently on its fourth development phase (4/4).
- URL: ceperformancemanagement.ca
- Technologies used: ASP.NET 1.1, SQL Server 2000

Dominos Canada Online Ordering

- Headed research and development of Dominos Canada's online ordering by implementing Dominos USA's web services for online ordering
- Project was championed by Oakville store, which was also used as a test store during R&D
- Menu dynamically displays products available from corresponding Dominos store that serves the customer's postal code / delivery area
- Online ordering has been disabled pending support contract agreement

Rowena J. Abarrientos

123 Dollery Court, Toronto, Ontario M2R 3N9

(416) 736-3639 Cell: (416) 704-2759

- URL: dominos.ca
- Technologies used: ASP.NET 2.0, SQL Server 2005, SOAP, JSON, AJAX, Google Maps

BNB Concierge

- Developed module that displays real-time bed-and-breakfast availability information retrieved from main BNB Concierge site using JSON and DHTML
- Designed shopping cart backbone for main BNB Concierge website
- URL: bnbconcierge.ca
- Technologies used: ASP.NET 2.0, SQL Server 2005, JSON, AJAX, Google Maps

Other Notable Projects

- Pristine Gourmet Online Store – ASP.NET 1.1, SQL Server 2000, Moneris payment gateway [pristinegourmet.com]
- Meal Exchange – PHP, Joomla, MySQL [mealexchange.com]
- PTPA Media (DNN Module) – ASP.NET 2.0, SQL Server 2005, DotNetNuke [ptpamedia.com]
- Kelloggs Canada Kidz Count site – ASP.NET 1.1, SQL Server 2000

Programmer Analyst (Co-op)

Sep 02 - Aug 03

Canadian Tire Corporation Ltd. Transportation and Supply Chain (Brampton)

- Developed and managed web applications for Canadian Tire's intranet portal using Windows Server 2003, SQL Server 2000 and ASP.NET 1.1 (C#)
- Created new web reports that dynamically rendered Crystal Reports .Net / Dundas WebCharts .Net graphs and charts, and exported PDF/Excel documents showing statistics and trends visibility
- Migrated ASP pages from old web application to ASP.NET (VB.NET/C#) and user controls
- Authored weekly reports (project status, suggestions for new projects) that were forwarded to upper management (Transportation Support Team Lead)

Web Programmer (Part-time)

Jan 03 - Jun 03

G6CC Consulting Company (California)

- Created an online global energy analysis application for the San Gorgonio High School, with an implementation of a flash-based presentation of the globe and countries using PHP and MySQL
- Created an online timeline application for the Redlands High School using PHP and MySQL (used as an organizing tool for students performing research)

Web Developer (Co-op)

Jan 02 - May 02

The Ontario Ministry of Consumer and Business Services (Toronto)

- Performed a variety of web-design tasks in a variety of environments
- Authored weekly reports (project status, suggestions for new projects) that were forwarded to upper management (Consumer & Business Services Manager)
- Developed an online survey web application that was used by four Ontario ministries
- Developed a poll wizard/creator for the Ontario Ministry of Labour's intranet site, using ASP and SQL Server

EDUCATION

BComm Information Technology Management (Minor in Finance)

Sep 06 - Present

Ryerson University, Toronto

Computer Programmer Analyst Diploma (Honours)

Sep 99 -Dec 02

Humber College, North Campus

B.Sc. Computer Engineering Course (B.Sc. Level)

Jun 97- Mar 99

University of the Philippines

CERTIFICATIONS

MCAD for Microsoft .NET 1.1 Web Applications

Exams 70-316 (Web Application in C#), 70-320 (XML Web Services), 70-431 (SQL Server 2005)

MCTS: Microsoft SQL Server 2005

Exam 70-431 (SQL Server 2005)
